

Dine Brands Global, Inc. Reports First Quarter 2025 Results

May 7, 2025

PASADENA, Calif.--(BUSINESS WIRE)--May 7, 2025-- Dine Brands Global, Inc. (NYSE: DIN), the parent company of Applebee's Neighborhood Grill & Bar®, IHOP® and Fuzzy's Taco Shop® restaurants, today announced financial results for the first quarter of fiscal year 2025.

"As we navigate the current operating environment, the fundamentals of our business remain strong, and since the second half of the quarter, we're seeing steady improvement across sales, traffic, and our development pipeline," said John Peyton, Chief Executive Officer of Dine Brands Global, Inc. "We're advancing our long-term strategy by executing the near-term priorities outlined last quarter—enhancing the guest experience, strengthening our menu and value platforms, and driving clearer value messaging through marketing. We're making great progress, and our team and franchisees are focused on continuing the positive momentum."

Vance Chang, Chief Financial Officer of Dine Brands Global, Inc., added, "While we continue to see the impact of consumer price sensitivity, our asset-light business model remains steady with solid cash flow, enabling us to invest in our brands and system to drive performance and continue returning capital to our shareholders."

Domestic Restaurant Sales for the First Quarter of 2025

- Applebee's year-over-year domestic comparable same-restaurant sales declined 2.2% for the first quarter of 2025. Off-premise sales accounted for 23.5% of sales mix in the first quarter of 2025 representing per restaurant average weekly sales of approximately \$12,800.
- IHOP's year-over-year domestic comparable same-restaurant sales declined 2.7% for the first quarter of 2025. Off-premise sales accounted for 21.2% of sales mix in the first quarter of 2025, representing per restaurant average weekly sales of approximately \$7,700.

First Quarter of 2025 Summary

- Total revenues for the first quarter of 2025 were \$214.8 million compared to \$206.2 million for the first quarter of 2024. The increase was primarily due to an increase in company restaurant sales attributable mainly to the acquisition of 47 Applebee's restaurants in the fourth quarter of 2024 partially offset by a decrease in franchise revenues primarily resulting from negative comparable same-restaurant sales growth and fewer franchise restaurants at Applebee's and IHOP.
- General and Administrative ("G&A") expenses for the first quarter of 2025 were \$51.3 million compared to \$52.2 million for the first quarter of 2025. The variance was primarily attributable to a decrease in compensation-related expenses offset by an increase in legal and professional services fees.
- GAAP net income available to common stockholders was \$7.8 million, or earnings per diluted share of \$0.53, for the first quarter of 2025 compared to net income available to common stockholders of \$17.0 million, or earnings per diluted share of \$1.13 for the first quarter of 2024. The decrease was primarily due to a decrease in segment profit and an increase in closure and impairment charges partially offset by a decrease in G&A expenses.
- Adjusted net income available to common stockholders was \$15.4 million, or adjusted earnings per diluted share of \$1.03, for the first quarter of 2025 compared to adjusted net income available to common stockholders of \$19.9 million, or adjusted earnings per diluted share of \$1.33, for the first quarter of 2024. The decrease was primarily due to a decrease in segment profit partially offset by a decrease in G&A expenses and a decrease in cash interest expense. (See "Non-GAAP Financial Measures" for reconciliation of GAAP net income available to common stockholders to adjusted net income available to common stockholders.)
- Consolidated adjusted EBITDA for the first quarter of 2025 was \$54.7 million compared to \$60.8 million for the first quarter of 2024. (See "Non-GAAP Financial Measures" for reconciliation of GAAP net income to consolidated adjusted EBITDA.)
- Cash flows provided by operating activities for the first quarter of 2025 were \$16.1 million. This compares to cash flows provided by operating activities of \$30.6 million for the first quarter of 2024. The decrease was primarily due to unfavorable decrease in working capital resulting from the timing of rent payments and collection of a tax settlement in the prior period as well as a decrease in segment profit partially offset by a decrease in incentive compensation payments.

- Adjusted free cash flow was \$14.6 million for the first quarter of 2025. This compares to adjusted free cash flow of \$29.7 million for the first quarter of 2024. (See “Non-GAAP Financial Measures” for reconciliation of the Company’s cash provided by operating activities to adjusted free cash flow.)
- Development activity by Applebee’s and IHOP franchisees for the first quarter of 2025 resulted in nine new restaurant openings and the closure of 39 restaurants.

Key Balance Sheet Metrics (March 31, 2025)

- Total cash, cash equivalents and restricted cash of approximately \$250.4 million, of which approximately \$186.5 million was unrestricted cash.
- Available borrowing capacity under the Variable Funding Senior Secured Notes is over \$224 million.

GAAP Effective Tax Rate

The Company’s effective tax rate was 35.9% for the three months ended March 31, 2025, as compared to 27.3% for the three months ended March 31, 2024. The effective tax rate for the three months ended March 31, 2025, was higher than the rate of the prior comparable period primarily due to lower tax deduction related to stock-based compensation, resulting from the changes in our stock price.

Capital Returns to Equity Holders

During the first quarter of 2025, the Company repurchased approximately \$1.6 million of its common stock and paid quarterly cash dividends totaling approximately \$7.8 million in dividends.

Financial Performance Guidance for 2025

The Company reiterated its fiscal 2025 guidance items:

- Applebee’s domestic system-wide comparable same-restaurant sales performance is expected to range between negative 2% and positive 1%.
- IHOP’s domestic system-wide comparable same-restaurant sales performance is expected to range between negative 1% and positive 2%.
- Domestic development activity for Applebee’s franchisees is between 20 and 35 net fewer restaurants.
- Domestic development activity by IHOP franchisees and area licensees is expected to be between 10 net fewer restaurants and 10 net new openings.
- Consolidated adjusted EBITDA is expected to range between approximately \$235 million and \$245 million.
- G&A expenses are expected to range between approximately \$200 million and \$205 million. This total includes non-cash stock-based compensation expense and depreciation of approximately \$35 million.
- Capital expenditures are expected to range between approximately \$20 million and \$30 million.

Dine Brands does not provide forward-looking guidance for GAAP net income because it is unable to predict certain items contained in the GAAP measure without unreasonable efforts. These items may include closure and impairment charges, loss on extinguishment of debt, gain or loss on disposition of assets, other non-income-based taxes and other items deemed not reflective of current operations.

First Quarter of 2025 Earnings Conference Call Details

Dine Brands will host a conference call to discuss its results on **May 7, 2025, at 9:00 a.m. Eastern time**. A live webcast of the call, along with a replay will be available for a limited time at <https://investors.dinebrands.com>. Participants should allow approximately ten minutes prior to the call’s start time to visit the site and download any streaming media software needed to listen to the webcast. An online archive of the webcast will also be available on Events and Presentations under the Investors section of the Company’s website.

About Dine Brands Global, Inc.

Based in Pasadena, California, Dine Brands Global, Inc. (NYSE: DIN), through its subsidiaries and franchisees, supports and operates restaurants under the Applebee’s Neighborhood Grill + Bar®, IHOP®, and Fuzzy’s Taco Shop® brands. As of March 31, 2025, these three brands consisted of over 3,500 restaurants across 19 international markets. Dine Brands is one of the largest full-service restaurant companies in the world and in 2022 expanded into the Fast Casual segment. For more information on Dine Brands, visit the Company’s website located at www.dinebrands.com.

Forward-Looking Statements

Statements contained in this press release may constitute “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. You can identify these forward-looking statements by words such as “may,” “will,” “would,” “should,” “could,” “expect,” “anticipate,” “believe,” “estimate,” “intend,” “plan,” “goal” and other similar expressions. These statements involve known and unknown risks, uncertainties and other factors, which may cause actual results to be materially different from those expressed or implied in such statements. These factors include, but are not limited to: general economic conditions, including the impact of

inflation, particularly as it may impact our franchisees directly; our level of indebtedness; compliance with the terms of our securitized debt; our ability to refinance our current indebtedness or obtain additional financing; our dependence on information technology; potential cyber incidents; the implementation of corporate strategies, including restaurant development plans; our dependence on our franchisees; the concentration of our Applebee's franchised restaurants in a limited number of franchisees; the financial health of our franchisees including any insolvency or bankruptcy; credit risks from our IHOP franchisees operating under our previous IHOP business model in which we built and equipped IHOP restaurants and then franchised them to franchisees; insufficient insurance coverage to cover potential risks associated with the ownership and operation of restaurants; our franchisees' and other licensees' compliance with our quality standards and trademark usage; general risks associated with the restaurant industry; potential harm to our brands' reputation; risks of food-borne illness or food tampering; possible future impairment charges; trading volatility and fluctuations in the price of our stock; our ability to achieve the financial guidance we provide to investors; successful implementation of our business strategy; the availability of suitable locations for new restaurants; shortages or interruptions in the supply or delivery of products from third parties or availability of utilities; the management and forecasting of appropriate inventory levels; development and implementation of innovative marketing and use of social media; changing health or dietary preference of consumers; changes in U.S. government regulations and trade policies, including the imposition of tariffs and other trade barriers; risks associated with doing business in international markets; the results of litigation and other legal proceedings; third-party claims with respect to intellectual property assets; delivery initiatives and use of third-party delivery vendors; our allocation of human capital and our ability to attract and retain management and other key employees; compliance with federal, state and local governmental regulations; risks associated with our self-insurance; risks of major natural disasters, including earthquake, wildfire, tornado, flood or a man-made disaster, including terrorism, civil unrest or a cyber incident; risks of volatile or adverse weather conditions as a result of climate change; pandemics, epidemics, or other serious incidents; our success with development initiatives outside of our core business; the adequacy of our internal controls over financial reporting and future changes in accounting standards; changes in tax laws; failure to meet investor and stakeholder expectations regarding business responsibility matters; and other factors discussed from time to time in the Corporation's Annual and Quarterly Reports on Forms 10-K and 10-Q and in the Corporation's other filings with the Securities and Exchange Commission. The forward-looking statements contained in this press release are made as of the date hereof and the Corporation does not intend to, nor does it assume any obligation to, update or supplement any forward-looking statements after the date hereof to reflect actual results or future events or circumstances.

Non-GAAP Financial Measures

This press release includes references to the Company's non-GAAP financial measure "adjusted net income available to common stockholders", "adjusted earnings per diluted share (Adjusted EPS)", "Adjusted EBITDA" and "Adjusted free cash flow." Adjusted EPS is computed for a given period by deducting from net income or loss available to common stockholders for such period the effect of any closure and impairment charges, any intangible asset amortization, any non-cash interest expense, any gain or loss related to the disposition of assets, any gain or loss related to debt extinguishment, and other items deemed not reflective of current operations. This is presented on an aggregate basis and a per share (diluted) basis. Adjusted EBITDA is computed for a given period by deducting from net income or loss for such period the effect of any interest expense, any income tax provision or benefit, any depreciation and amortization, any non-cash stock-based compensation, any closure and impairment charges, any gain or loss related to debt extinguishment, any gain or loss related to the disposition of assets, and other items deemed not reflective of current operations. "Adjusted free cash flow" for a given period is defined as cash provided by operating activities, plus receipts from notes and equipment contracts receivable, less capital expenditures. Management may use certain of these non-GAAP financial measures along with the corresponding U.S. GAAP measures to evaluate the performance of the business and to make certain business decisions. Management uses adjusted free cash flow in its periodic assessments of, among other things, the amount of cash dividends per share of common stock and repurchases of common stock and we believe it is important for investors to have the same measure used by management for that purpose. Adjusted free cash flow does not represent residual cash flow available for discretionary purposes. Management believes that these non-GAAP financial measures provide additional meaningful information that should be considered when assessing the business and the Company's performance compared to prior periods and the marketplace. Adjusted EPS and adjusted free cash flow are supplemental non-GAAP financial measures and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with U.S. GAAP.

Restaurant Data

(Unaudited)

The following table sets forth, for the three months ended March 31, 2025 and 2024, the number of “Effective Restaurants” in the Applebee’s, IHOP and Fuzzy’s systems and information regarding the percentage change in sales at those restaurants compared to the same periods in the prior year and, as such, the percentage change in sales at Effective Restaurants is based on non-GAAP sales data. Sales at restaurants that are owned by franchisees and area licensees are not attributable to the Company. However, we believe that presentation of this information is useful in analyzing our revenues because franchisees and area licensees pay us royalties and advertising fees that are generally based on a percentage of their sales, and, where applicable, rental payments under leases that partially may be based on a percentage of their sales. Management also uses this information to make decisions about future plans for the development of additional restaurants as well as evaluation of current operations.

Average weekly domestic unit sales (in thousands) \$ 26.5 \$ 28.6

“Effective Restaurants” are the weighted average number of restaurants open in each fiscal period, adjusted to account for restaurants open for only a portion of the period. Information is presented for all Effective Restaurants in the Applebee’s, IHOP and Fuzzy’s systems, which consist of (a) restaurants owned by franchisees and area licensees as well as those owned by the Company. Effective Restaurants do not include units operated as ghost kitchens (small kitchens with no store-front presence, used to fill off-premise orders).

“System-wide sales” are retail sales at Applebee’s and Fuzzy’s restaurants operated by franchisees and IHOP restaurants operated by franchisees and area licensees, as reported to the Company, in addition to retail sales at company-operated Applebee’s, IHOP and Fuzzy’s restaurants. System-wide sales do not include retail sales of ghost kitchens. Sales at restaurants that are owned by franchisees and area licensees are not (b) attributable to the Company. An increase in franchisees’ reported sales will result in a corresponding increase in our royalty revenue, while a decrease in franchisees’ reported sales will result in a corresponding decrease in our royalty revenue. Unaudited reported sales for Applebee’s and Fuzzy’s franchise restaurants, IHOP area license restaurants, and Applebee’s, IHOP and Fuzzy’s company-operated restaurants were as follows:

Three Months Ended March 31,

2025 2024

Reported sales (in millions)

Applebee’s franchise restaurant sales	\$ 1,055.1	\$ 1,120.9
Applebee’s company-operated restaurants	20.1	—
IHOP franchise restaurant sales	780.3	803.8
IHOP area license restaurant sales	73.9	77.8
IHOP company-operated restaurants	1.3	—
Fuzzy’s franchise restaurant sales	39.3	47.3
Fuzzy’s company-operated restaurants	0.2	0.3
Total	\$ 1,970.2	\$ 2,050.1

(c) “Sales percentage change” reflects, for each category of restaurants, the percentage change in sales in any given fiscal period compared to the prior period for all restaurants in that category.

“Domestic same-restaurant sales percentage change” reflects the percentage change in sales in any given fiscal period, compared to the same (d) weeks in the prior period, for domestic restaurants that have been operated during both periods that are being compared and have been open for at least 18 months. Because of new restaurant openings and restaurant closures, the domestic restaurants open throughout both fiscal periods being compared may be different from period to period.

(e) The franchise sales percentage change for 2025 was impacted by the acquisition of 47 Applebee’s restaurants in November 2024 and 10 IHOP restaurants in March 2025 now reported as company-operated.

The restaurant counts and activity presented above include 19 dual-branded international and one dual-branded domestic Applebee's and IHOP restaurants at March 31, 2025, and eight dual-branded international Applebee's and IHOP restaurants at March 31, 2024, which are separately counted in each of our brands' restaurant counts and activity. Dual-branded restaurants are defined as restaurants that reside in one location and operate two of our restaurant concepts under two separate franchise agreements. In addition, the restaurant counts and activity presented above do not include ghost kitchens (small kitchens with no store-front presence, used to fill off-premise orders).
